

SL Overlay for Business Central

Built with Dynamics SL customers in mind, yet beneficial for all!

SL Overlay for Business Central

The SL Overlay is the result of working with users to add features based on Microsoft Dynamics SL functionality that add value to all users of **Microsoft Dynamics 365 Business Central**, not just **Dynamics SL** users.

Two scheduled releases:

- Fall 2020
- Spring 2021

SL Overlay Fall 2020 release

What's included

Recurring Journal - Reversing Journal

- Set the date of the Reversing Journal for Recurring Journals

Warning Messages

- Adding 25 additional warning messages for data missing from key fields

Shortcut Dimensions 3-8

- Adding Shortcut Dimensions to Financial setup and data entry screens

Reversing Journal

Dynamics 365 BC Recurring Journals feature creates a reversing entry set to **post the next day**.

Microsoft Dynamics SL users are used to entering recurring journals where the reversing entry posts to the **next period/month**.

The SL Overlay adds the ability to set when a reversing entry happens:

- New Reversing Day Formula field added to screen
- Set reversing date to any date

Warning Messages

Dynamics 365 Business **Central automatically** saves data being entered

Dynamics 365 Business Central's **My Notifications** screen is used to manage warning messages to remind users when entering data

Microsoft Dynamics SL users are used to being **warned** if any “key” fields are **not populated**

The SL Overlay

- Adds **25 warning messages** to Dynamics 365 Business Central financial screens to assist entering data using the My Notifications screen

Warning messages can be **turned on or off** for each user

Edit List Open in Excel

Notification	Enabled	Conditions
→ Warn about invalid code (Employee)	<input checked="" type="checkbox"/>	(View filter details)
Warn about missing values in Number Series (FA)	<input checked="" type="checkbox"/>	(View filter details)

Adding Shortcut Dimensions 3-8

Dynamics 365 Business Central **dimensions** are similar in concept to the Dynamics SL **subaccount** segments

Dynamics 365 Business Central includes up to 8 dimensions

Dimension 1-2 are global dimensions available on all screens

Dimension 3-8 are only available in Dynamics 365 Business Central by drilling down to other screens to view or enter data

The SL Overlay

- Adds shortcut dimension 3-8 to financial maintenance and data entry screens
- Allows filtering on ledger entries and reports on dimensions 3-8

SL Overlay Spring 2021 Release

Changing terminology

10 new SL based reports

Batch processing

GL Register page enhancements

Period fields

New graphic menu using SL menu layout

SL Overlay Spring 2021 Release

Changing terminology

- Adding SL screen names to BC screens

10 new SL based reports

- Example adding dimensions 3-8 in financial reporting

Batch processing

- Adding Created By field and filtering
- See only the items you have entered (purchase & sales documents)
- Release multiple purchase or sales documents at a time

SL Overlay Spring 2021 Release

GL Register page enhancements

- Added Created By User field for filtering
- Links added to Customer and Vendor list pages to access related ledger entries
- Print and Post batch from Document List
- Added “Control Total” field to Purchase and Sale Invoice pages
 - Enter total and set whether to allow release if detail lines do not equal total
- Adding budgeting by periods 3-6

Period fields

- Display Accounting Period on screen
- Close periods and automatically set date range based on period value
- Use period fields to filter custom SL based reports

New Graphic menu using SL menu layout (desktop and portable)

- Financial menu
- Editable menu system
