

## Dynamics AX 2012 to Dynamics 365 Fixed Price Upgrade

2021 H2 Promotional Offer

### The business case for upgrading to Cloud ERP just got better. Much better.

It's time to take the next step in your digital journey. Long-term support for Dynamics 2012 ends in October 2021, and the added security, flexibility, and performance of Dynamics 365 Finance has created a new standard in ERP.

Take advantage of this unprecedented offer and make your move to the cloud with **lower upgrade costs by as much as 40%**. See offer details below:

#### Dynamics Upgrade Analysis [FREE]

Expert review and detailed report of your current deployment of Dynamics AX, including any third-party solutions, in-house customizations, integrations, and required changes to current processes and configurations.

#### Cloud Readiness Assessment [FREE]

Comprehensive review of your other applications, underlying platform, and overall organizational readiness to create a realistic roadmap for your digital transformation journey.

#### Upgrade and Data Migration [FIXED PRICE]

Velosio will create a detailed scope of work and perform the entire upgrade, user training, and first 2 updates from Microsoft. We take on the risk in this fixed-price engagement. Typical upgrade projects are completed in under four months.

#### 6-Months App Managed Services [FREE]

Change - even the positive kind - comes with challenges. To ensure the best possible outcome, we will provide managed services for the first six months at no additional cost.
