

Discover the value of Microsoft AI solutions with **Copilot + Power Accelerate**

2026 is the year of the [Frontier Firm](#). Access to Gen AI technologies is rewiring how businesses harness digital intelligence and power transformation and do more with humans. Now is the time to explore an operating model built on AI-powered productivity solutions with Copilot and agents. 78% of leaders are planning AI-focused roles, and 24% have already deployed AI organization-wide—the time to act is now.

Copilot + Power Accelerate transforms AI from tools into a new operating model—evolving teams from assisted work to agent-led processes. Through flexible engagements, it showcases Microsoft 365 Copilot, activates agentic workloads via Copilot Studio and Power Platform, and highlights the impact of Copilot Chat.

Copilot + Power Envisioning & POC benefits

- ✓ Select the solutions and scenarios that best fit your organization's needs, with the flexibility to combine or focus on your top priorities. You can choose the full suite or specific components—Microsoft 365 Copilot, Copilot Chat, Copilot Studio & Agents, Power Apps, Power Automate, and Power Pages. Achieve measurable results and securely scale your AI transformation.
- ✓ Benefit from business value analysis, scenario discovery, solution design, and training—all designed to maximize ROI and empower your teams.

How does it work?

- ✓ Step 1: Select the engagement type and size, the activities and products that fit your organization
- ✓ Step 2: Work with Velosio to define success criteria, build POC through trials activation, and build your AI roadmap
- ✓ Step 3: Track progress and realize benefits with clear success metrics and ongoing support.

Available activities

Alignment on business objectives: Define what success looks like for your AI agent journey.

Hands-on prototyping: Rapidly build and iterate on agent solutions with expert support.

Actionable roadmap: Receive tailored recommendations and next steps for scaling agent adoption.

Measurable outcomes: Demonstrate value with clear metrics and business impact.
